PRESIDENT'S MESSAGE

IIIIIIIIIMMM BAAAAAAAACCK!

That's right Music City Mustangers. I am back in the saddle again. As your newly elected president, I look forward to a wonderful year. Thank you for your vote of confidence. I will try and not let you down.

I just finished reading a MM article about a girl who, along with her husband, had bought an older Mustang with the hopes of fixing it up themselves with the help of some volunteers. Many of their friends had offered to give them assistance, but only a lone Mopar guy actually did help. Is this story sounding vaguely familiar?

Many of our members join for the chance for help on their project car. I do not mean paid help, but volunteer help and/or the opportunity to simply watch and learn from others who have experienced their passion and have turned their project ponies into the boulevard stallions. I know that over the years, my garage has had many wandering Mustang junkies, who will remain nameless for now, that enjoyed the camaraderie and the sharing of knowledge and in general, just hanging out on a Saturday afternoon. It is just a thought, but maybe we can get a little nostalgic and try and turn the clock back a few years and find that Energizer Bunny in all of us and do some of the fun things we used to. It is up to us to make this hobby an enjoyable experience for all. What do you think?

-Jim

2005 MUSTANG CONCEPT

The 2005 Mustang concept vehicle debuted at the Detroit Auto Show on January 5th, 2003. This is a two-seat *concept*, yet by the way it looks, Ford is going to incorporate even *more* retro styling cues with the next mustang.
