The Newsletter of the Music City Mustang Club

The Legend is published monthly by the Music City Mustang Club, Inc. (MCMC), Nashville, Tennessee. MCMC was organized in 1980 by, and for, the owners and lovers of Ford Mustang automobiles. All Mustang owners and enthusiasts are welcome to join. MCMC is a sanctioned regional group of the

MUSTANG CLUB OF AMERICA.

BEHIND THE WHEEL

By Scott Lickteig, President

Well here it is March and we are fast closing in the much-celebrated 40th Anniversary. I would like to put forth a challenge to the club. We have an opportunity to showcase what this hobby is all about. There will be people traveling great distances just to be a part of the event. The challenge is this, for each of us to bring a new person to the show or one of our meetings. This club offers much more than parts, tires or even the cars themselves. We have the knowledge of just about every year Mustang built. Not to mention the folks who like traveling down the quarter mile or those who enjoy open track events. If each of us brings a new person whose interest lies with the Mustang just think what this club could really do.

Take a look at the traffic and notice the Mustangs you see while driving to work or the store. Lately I have noticed that every day it seems more and more of the pony cars are on the streets. Look further, see the folks driving the car and wonder do they know a club is waiting to make their passion for the car even more thrilling.

My father once told me that no one should stand at the fence and watch. What he was telling me, each person young or old should have the chance to experience the thrill of the hobby. That is what I am asking this club to do. We have an opportunity to demonstrate the love of Mustangs with so many people we surely can provide to just about everyone's wants.

NEXT CLUB MEETING

Thurs., March 18, 7pm

Club meetings are held at the Piccadilly Cafeteria (615-367-4640), 874 Murfreesboro Road, Nashville, on the third Thursday of the month (except December).

So I ask each of you. Bring a new face to the 40th or a club meeting. I feel this club has such great wealth of knowledge and true devotion for the hobby how can we not succeed.

Please get the word out about the open track event in May. We will be selling track time during the 40th but I would like us to let other clubs know about this. We will have flyers at the March general meeting. Remember it is Memorial weekend May 28-29.

As we approach the 40th Anniversary we all need to be thinking of what we can do to assist. If you have some time available and can help it would be greatly appreciated. Let myself know by either e-mail or phone call on the days you can be available.

Note, we will not have a general meeting in April due to the 40th at the speedway. Of course one might consider the April meeting a very large monthly meeting with people from all over the world.

INSIDE YOU'LL FIND...

- The News** 2
Important news tidbits for the avid MCMC'er. If Osama Bin Laden wasn't a driver for Bud Moore during the '69 Trans Am season, you won't find him here.
- Upcoming Events** 3
Find out where to show off your handiwork (or at least leave an oil spot on the pavement).

- Through the Rearview Mirror** 2
This is one history class you don't want to sleep through.
- Well...What Is It?** 2
Is a Ranchero a car or a truck? Who cares...this article is more interesting.
- Classified Ads** 6
Looking for a hood ornament? Look no further. Missing your other blue sock? Can't help you here.

THROUGH THE
REARVIEW MIRROR

By Jason Boshers, Historian

The newsletter from April 1991 sounds a little like current newsletters. It seems the club was on the verge of a National show and the club President, Frank Davis, was busy getting volunteers. The show was an MCA Southeastern National show and was hosted at the Marriott Hotel. The structure of the show and workers appears to be the same then as today with Show Teams and the Team Leaders. Many of the club members were listed as workers; but I did not recognize very many names. In the clubs 11 years it was considered to be the biggest event yet.

Most of the April newsletters covered the events at the Pensacola Show. In 1991, 3 club families attended the show. They were the Hardys, Sheilds and Sullivans. E.G. Hardy enter his '66 Fastback and took home a first

place trophy. In 1993, 7 families made the journey: They were the Craigs, Sullivans, Joh Hoover, Dennis Hibben and Bill Davis, the author of the article. It seems John's car, a '66 Coupe that was called "Frankenstang", had a tempermental horn that worked before the show but not during inspection. Mark Craig was a first place winner in the Concourse Driven with this white '67 GTA convertible. It was the first time the car had been shown. John's car, the "Frankenstang", won second place in MC Modified.

Pensacola sounds like a great show, judging by the old newsletters. Should be interesting.

Wish I was going. Take some pictures and enjoy the show.

WELL...WHAT IS IT?

By Jason Boshers, Historian

On October 14, 1947, Chuck Yeager in a Bell X_1 aircraft became the first man to travel faster than the speed of sound. The speed of sound is called Mach 1. Mach 1 at normal room to air temperature is 758 miles per hour. The term Mach came from Ernst Mach who came up with a calculation that could consistently tell the relationship between an objects speed and the speed of sound.

From the catchy name and the supersonic sound you can understand why in 1969 Ford wanted to call their new faster, sleeker and sexier Mustang a Mach 1. The big question is why is it Mach 1, with the number 1 on the side of the car; and Mach I, with the Roman numeral I on the dash plaque? Where was the mix up? I know in big corporations the right hand does not always know what the left is doing. But with the countless procedures a car has to go through a person would think somebody would notice the difference. Were too many made that it did not cost justify a remake? Does anybody care? Did they decide to let their mistake become part of Mustang lore? Does anybody know?

I personally think it was just a mistake
